## HOW TO MEASURE FOR YOUR NEW METAL ¾ SPLIT DRIVEWAY GATE

Please call us on 0800 6124 965 if you have any questions or visit [www.gatesandfencesuk.co.uk](http://www.gatesandfencesuk.co.uk).

First, take THREE measurements between the pillars/ posts. Across the top, middle and bottom (as shown below).

TOP:	MIDDLE:	BOTTOM:
------	---------	---------

Make a note of the SMALLEST measurement.

Next. Determine how the gates are going to open and reduce the clearance gap required from the smallest measurement.

Gates can open both ways. Hinge plates mounted to inner face of post/ pillar. Gate to be mounted central between the posts.

REDUCE 150mm (approx. 6") from your lowest measurement.

If you have any questions, please call us direct on 0800 6124 965.
