HOW TO MEASURE FOR YOUR NEW SLIDING GATE

Please call us on 0800 6124 965 if you have any questions or visit www.gatesandfencesuk.co.uk.

Simply, take a measurement of your opening size as shown below. Then add 800mm to your size. This is to allow for the "overhang" required.

Example: Opening size 4m 120mm + 800mm (for overhang) = sliding gate size of 4m 920mm.

It is important to remember the return area for the sliding gate. Using the above as an example, the clear space you would need would be:

4m 120mm (Opening size) + 4m 920mm (return and overhang) = 9m 040mm.

If you have any questions, please call us direct on 0800 6124 965.
